PROJECTS

- **AMAZON FRONTEND CLONE**

Technologies Used: HTML, CSS, Vs code, Github

I designed and coded a user interface that emulated the layout, styling and interactive elements of original Amazon Platform. Worked independently to design and code.

- **PORTFOLIO**

Technologies Used: HTML, CSS, Vs code, Github

I conceptualized , designed and developed a dynamic and visually appealing personal website that serves as testament to my expertise in web development and design.

I integrated social media links to connect with the audience across different platforms

- **SHOPPING CART**

Technologies Used: C++, OOPS, Data Structures, Vs code, Github

Developed the backend infrastructure for a shopping cart, focusing on core functionalities such as item management, cart handling, and checkout processing. Implemented backend logic using C++ programming language, applying object-oriented programming (OOP) principles to ensure code modularity and reusability.

- **DICTIONARY API INTEGRATION**

Technologies Used: HTML, CSS, ReactJs, Vs code, Github

Developed an application that integrates with a dictionary API to provide users with definitions, synonyms, and examples of words. The project aimed to enhance user experience by offering quick access to language resources.

ACHIEVEMENTS

LADIES REPRESENTATIVE

- I effectively served as a coordinator between female students and class administration for 1 year.

TECHNICAL VOLUNTEER

- volunteer technical manager in an International Conference.

SOUTH ZONE UNIVERSITY VOLLEY BALL PLAYER

- I was one of the two players in South Zone University Volleyball Tournaments represented Sri Venkateswara University held in Chennai.

TECH FEST ORGANIZER

- I was the organizer for the departmental tech fest "CYNOSURE" with more than 800 participants.
